It is advantageous for students to understand their type of learning style so that homework and learning may become easier and less stressful in the future. It is also important for parents to understand their children s preferred learning style so that you can help your children and your children s teachers understand the importance of nurturing that particular style of learning in the classroom and at home. There are three main types of learning styles: 1.)Auditory Learners: Hear 2.)Visual Learners: See 3.)Kinesthetic Learners: Touch The Fun and Silly ABC s Coloring Book: An Educational Picture and Activity Book catering to all three styles of learning. It caters to the hearing style of learning by parents working with their children by sounding out the alphabets and reading the sentences having their children listen and repeat. It caters to the visual learners by children being able to see and retain the alphabets and the sentences by seeing fun and silly pictures to explain what the child is seeing. Kinesthetic Learners learn from hands-on experience. The activities within the coloring book will cater to this learning style. Parents remember: As a skill is practiced or rehearsed over days and weeks, the activity becomes easier while naturally forcing the skill to a subconscious level where it becomes permanently stored for recall and habitual use at any time.
