

A System of Chemistry of Inorganic Bodies Volume 2 (Paperback)

By Thomas Thomson

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1831 Excerpt: .analyses. Carbonic acid. 7-5 Soda. 9-412 Water. 293 1-245 water, including a little muriatic acid. The salt then contain a slight excess of carbonic acid; unless we are to ascribe this excess to an error in the analysis. The constituents are obviously 1 atom carbonic acid. 2-75 1 atom soda. 4 1 atom water. 1-125 7-875 18. Srsrpiiht/dratcd carttonatc of soda. This salt is described in Poggendorf s Annalen by Molis, under the name of prismatic carbonate of soda. It is obtained when a saturated solution of carbonate of soda at a temperature of from 68 to 80 is allowed to cool. The crystals are four-sided tables, they effloresce in the air, but much more slowly than common lom. vi. p 87. carbonate. Its composition, according to the analysis of Hai-8tct-dinger is Anhydrous carbonate of soda. 8226 Water. 17-74 100-00 This amounts to about 1 atom...
