Astronomy by Observation: An Elementary Text-Book for High-Schools and Academies (Classic Reprint) (Paperback)

By Eliza A Bowen

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Astronomy by Observation: An Elementary Text-Book for High-Schools and Academies This book has grown out of actual school-work, in which it was the teacher's object to make pupils studying elementary astronomy observe and think. The following are its chief peculiarities: 1. An efficient, easy, well-tried plan for teaching the constellations is described. Its use will obviate the necessity of a teacher doing work out of school-hours, by enabling students to become independent observers. 2. Careful directions are given when, how, and where to find the heavenly bodies. Their motions are described in the order in which they can be seen by an observer, and in familiar language. Thus, the textbook may be a guide to the observation of beginners. 3. The student is excited to thought. Facts are stated first; theory afterward, as a deduction from the facts. The selection of subjects for the student's thinking is a little different from that of other school astronomies. The general principle governing this selection is to make the student understand what he can see. The...
