Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1921 Excerpt: . . . which entitles him to rank as the first of real botanists in point of time. 6 With the Greeks, then, biology emerged from the shadows of the past and took concrete form--a fact which apparently the discerning mind of Aristotle appreciated since, though frequently referring to the ancients, he writes: I found no basis prepared; no models to copy Mine is the first step, and therefore a small one, though worked out with much thought and hard labor. It must be looked at as a first step and judged with indulgence. Before leaving the Greeks we must mention Hippocrates (460-370 B. c), the Father of Medicine. Writing a generation before Aristotle, at the height of the Age of Pericles, Hippocrates crystallized the knowledge of medicine into a science, dissociated it from philosophy, and gave to physicians the highest moral inspiration they have. To him medicine owes the art of clinical inspection and observation, and he is, above all, the exemplar of that flexible, critical, wellpoised attitude of mind, ever on the lookout for sources of error, which is the very essence of the scientific spirit The revival of the Hippocratic methods in the seventeenth century and their triumphant vindication by the concerted scientific movement of the nineteenth, is the whole history of internal medicine. 7 Medicine, the most important aspect of applied biology, is the foster parent of zoology and botany since a large proportion of biological advances have been the work of physicians. Until relatively...
