It is an awesome ebook which i actually have at any time read through. It usually fails to charge excessive. It is extremely difficult to leave it before concluding, once you begin to read the book.

Brill, Netherlands, 2000. Hardback. Book Condition: New. 302 x 213 mm. Language: English . Brand New Book. This volume constitutes a new step forward in the study of the Late Bronze Age city of Emar. A multi-ethnic population of Hittites, Assyrians, Egyptians and the north-west Semitic-speaking natives inhabited this port of call situated on the middle Euphrates on the frontier of the Hittite province of Syria, facing Babylonia to the south-east and Assyria to the north-east. It flourished during the last days of this hegemonic power system which was broken by the inroads of the Aramaeans, the Israelites, the Sea Peoples, and the rise of the Phoenician city states in the twelfth century. The tablets published here are in a variety of languages and cover the full range of types of documents found from rituals and cultic inventories to legal documents and payment lists. Each text type is discussed and parallels to previously published texts are given. Every document is provided with an introduction placing it in its context, a transliteration, translation and philological and textual notes. Furthermore, they are presented in photographs, hand copies and with drawings of all the Hittite and Syrian sealings. These texts provide insights into the political, economic, social and religious life of the critical period of the late thirteenth and early twelfth centuries when the face of the Near East underwent global changes.
